

CROWD APPLAUDS  
SPOONERS NAME

Marshfield Audience Delighted When the Governor Mentions the Senator.

## SPOONER TALKS

His Meeting at La Crosse the Largest Political Gathering Ever Held in That City.

(Special To The Gazette.)  
Marshfield, Oct. 31.—Governor La Follette spoke here last night to fully the largest audience that has greeted any of the candidates here this fall. His mention of Senator Spooner's name in his address, in praising his work in the senate was the cause for prolonged and loud applause that could not be quieted for some time. It was necessary to have an overflow meeting to satisfy all the people in the town.

**Spooner Crowds**  
LaCrosse, Oct. 31.—Senator Spooner last night spoke to thirty five hundred persons by far the biggest audience that has ever greeted a political speaker in this city. His address was cheered repeatedly as was his arrival at the station. The senator was late in arriving in the city and when he did come the streets were crowded with people who had a big parade waiting for him and a banqueting. The senator showed great pleasure at his reception and entertainment by his listeners in the hall.

**Answers La Follette**  
Col. James Barber of Eau Claire one of the best known republicans in the state has written an answer to Governor La Follette's speech at Appleton and will have the article published in several papers. It is headed: La Follette's duty to his party. Its appearance has caused much excitement in political circles throughout the state.

## FACULTY MAKES A CONCESSION

Offers to Rehear Cases If Strikers Return to Classes.

Lansing, Mich., Oct. 31.—A mass meeting of the striking Michigan Agriculture college students was held at which a proposition to end the strike was presented from the faculty. It was to the effect that the students resume class work, that a new committee of the faculty will rehear their grievances and that if they can show that the former action of the faculty in suspending seventeen students for participating in the freshmen-sophomore class rush was unjust, the sentence will be materially altered. If the judgment of the committee is not satisfactory to the students they may have the right of appealing to the state board of agriculture. Before a vote was taken on the proposition the students adjourned.

Washington, Oct. 31.—President Roosevelt and a small party have gone on an outing of a day or two in Virginia. It is probable some of the battle fields of the civil war will be visited.

COFFEE CROP IS  
ALMOST RUINED

The Volcano Recently at Guatemala Has Done Disastrous Damage to Plantations.

(Special By Scripps-Mellae.)  
Guatemala City, Guatemala, Oct. 31.—Further reports from the scene of the volcanic eruptions show that the loss is even greater than was at first thought and the richest coffee regions of the state have been destroyed by ashes which have buried the big plantations to the depth of seven to nine feet. The districts most effected are the Costa Cusa and the Costa Grande. They are the finest portion of the country for coffee culture and from the present indication fully one-third of the present crop is ruined. The volcano that has caused the havoc is the Santa Maria and is located between Retalhul and Quezaltenango. The towns thought to have been destroyed are San Felipe, Retalhul and Quezaltenango. The present eruption may seriously effect the plans of having the canal across the Isthmus as these volcanoes are near the proposed line of the canal.

ALDERMAN'S WIFE  
USES A REVOLVER

Shoots Young Woman in the Chin Because She Had Been Seen With Councilman.

Youngstown, O., Oct. 31.—Mrs. Carrie Conner, wife of City Councilman John J. Conner, met Miss Mattie Burts on the street where hundreds of people were passing and shot her in the chin. Before she could fire a second time Patrolman Parks, who was passing on a car, seized Mrs. Conner and secured the revolver. The victim was taken to a hospital. She may recover. Miss Burts is an attractive blonde, 25 years old. Her home is at Sazimaw, Mich. Recently she came here and was seen with Conner. Mrs. Conner, being informed of the conduct of her husband, lay in wait for the woman and shot her. The offended wife had threatened to kill both her husband and Miss Burts if she caught them together. Conner is wealthy, being worth \$150,000.

At a meeting of the Fond du Lac City teachers tomorrow Superintendent Wilson will bring up the subject of instituting a fire drill at stated intervals in the public schools.

RIOTING CONTINUES  
IN PORTO RICO

The Federals Are Still Beaten and Baffled by the Other Faction.

(Special By Scripps-Mellae.)  
San Juan, Porto Rico, Oct. 31.—The rioting at Ponce caused by political differences continues and another man was killed yesterday as the result of a disastrous street fight. This makes three killed in the city in the past twenty-four hours and many more injured. Trouble is also reported from all parts of the island and the federal party seems to be having a hard time to either register or get near the polling places. In Ponce itself business is at a standstill and serious riots are happening each day with the trouble getting worse. Instead of better, the republican mob ran amuck and fired shots in every direction wounding many innocent spectators. Hobart Bird of Madison, Wis., is a strong federal and his editorial in the News, his paper, has had much to do with stirring up the people against the federals.

SMALLER FORCES  
FOR PHILIPPINES

General Reduction of Troops Will Be Continued by Sending Home Seven Regiments.

(Special By Scripps-Mellae.)  
Manila, Oct. 31.—It is reported that there will be another large reduction of troops in the Philippines and the present force of 17,000 men will be further reduced by the sending home of seven more regiments, leaving but 10,000 men in the islands. It is said the Generals commanding the departments and President Roosevelt are sure that a reduction of fifty per cent can be made safely before the end of spring and still leave enough troops in the islands for all the purposes necessary. The plans for the wholesale cutting of the forces will be submitted to General Chaffee on his arrival in Washington and he will decide the question. He is on his way from this city to San Francisco from which port he will at once go to Washington. The present force of men will remain as they are until spring when if the present plans are carried out they will be decreased.

AMERICAN COAL IS  
NEEDED IN FRANCE

Large Demands Will Be Made on This Country Unless Strike Ends Soon.

(Special By Scripps-Mellae.)  
Paris, Oct. 31.—Consul Hayes at Rouen reports at the American legation here that unless the coal strike in France is ended very soon American coal will be needed throughout the whole of France to alleviate the suffering which will be sure to follow. He suggests that the coal carrying vessels can find a profitable trade in exporting coal and bringing back a cargo of French goods for sale in the United States. In showing where the United States may profit by the exchange in buying cargoes of gypsum of which there are vast beds throughout France and using them as ballast for the return trip.

Will Have Many New Warships Built in Germany, France and England.

(Special By Scripps-Mellae.)  
Yokohama, Oct. 31.—The Japanese government has decided to build four new battleships, six first class cruisers and various other small craft. Germany, France and England will build the ships.

## MURDER BROTHERS AND SISTER

Robbers Supposed to Have Slain Family to Secure Money.

Elkhorn, Wis., Oct. 31.—William Wickingson, aged 46; Albert Wickingson, a brother, aged 42, and Julia Wickingson, a sister, aged 35 years, were found buried to death in their home, ten miles west of here. The news was brought to Elkhorn by neighbors of the Wickingsons. The house was burned during the night, and the charred remains of the victims were found in the ruins. Nothing is known as to the cause of the fire. It is probable the Wickingsons were robbed and murdered and the house set on fire to cover up the crime. When the bodies were discovered the roof of the house had burned off, and by the time the nearest neighbor, who lived a quarter of a mile away, reached the scene, the structure was wrapped in flames. The Wickingsons were reputed to be wealthy, and it was said that they were accustomed to leave large sums of money around the house.

Authorities at Washington have received the text of the decision of Kings Oscar on the triangular controversy as to Samoa, and are confirmed in the reports of a final agreement with the United States.

MOLINEUX ON  
WITNESS STAND

Defendant in the Murder Trial Appeared This Morning in His Own Defense.

## JURY IS IMPRESSED

Important Testimony Given on Points Which Were Brought Out in the First Trial.

(Special By Scripps-Mellae.)  
New York, Oct. 31.—Roland Molineux, the alleged murderer of Mrs. Adams, now on trial for his life in this city appeared in the witness box for his own defense this morning.

**His Statement**  
Mr. Molineux stated that he had studied chemistry but that he had not sent Mrs. Adams or Mr. Cornish any package. That he had had trouble with Cornish, but over a private matter.

**Never Saw Bottle**  
He also firmly stated that he had never seen the poison bottle nor had he ever put anything into any bottle and sent it to Cornish. His appearance made an impression on the jury and court.

PONTIAC FIREMEN  
SAVE REFORMATORY

Good Work by Department Keeps Loss at State Institution at Low Figure.

Pontiac, Ill., Oct. 31.—Fire at the Illinois state reformatory destroyed the top half of the east wing of the old administration building and but for the assistance of the Pontiac fire department the entire building would have been consumed. The loss is about \$12,000. The origin of the fire is unknown, but it is supposed to have been started in the cane shop in the fourth story of the east wing of the main building, in which are located the superintendent's offices, dining room, officers' quarters and other apartments. When discovered the flames were leaping from the room furiously and for a time it seemed that the entire building was doomed to destruction. A dozen streams were soon at work in the building and the fire was checked, but not until the main offices and the superintendent's residence were flooded with water.

Large shipping sales at Duluth retarded wheat from an early decline.

GENERALS FAVOR  
THE ARMY CANTEEN

Miles is the Only Officer of Prominence Who Opposes Its Re-establishment.

(Special By Scripps-Mellae.)  
Washington, D. C., Oct. 31.—General Corbin in his annual report will recommend that the army canteen be re-established and it is understood that Secretary Root will concur with the recommendation. General Miles will not favor the report and will make an adverse report on the measure and do all he can to have the present system more strictly enforced. It is however the only officer of prominence that has this opinion and it will doubtless be overruled by the votes of others and the influence that will be brought to bear upon the administration will doubtless bring the matter before the congress in so strong a manner that the recent law will be repealed. The law was adopted when the galleries of the senate and house were crowded with delegates to the W. C. T. U. convention and was passed as a compliment to that organization. The abolition of the canteen has proved bad for the army and it will doubtless be reinstated.

COAL COMMISSION  
STILL AT WORK

Go Down Into Mines in Overalls and Jumpers To Investigate for Themselves.

## SEE THE HOMES

Will Decide the Question of Wages and See if It Is Sufficient for the Labor Dole.

(Special By Scripps-Mellae.)  
Scranton, Oct. 31.—It has been decided by the coal strike commission that if there is to be any change in the wage system it is to be dated from a fixed time probably not later than November 1. The commission decided that if at the conclusion of its hearing it had decided upon a change of scale as expedient, it should be adopted from a certain date so that all parties could facilitate their calculations.

**More Mines Examined**  
The commission began its second day's work by going down into the shafts of the Delaware and Hudson company. The mine is considered one of the hardest places in the entire region to operate. The veins of coal are very thin and very dirty. The party reached the mine at ten o'clock and after donning overalls and jumpers were lowered into the pit. This afternoon the miners' homes may be visited.

**Yesterday's Work**  
Yesterday the commission visited many of the mines and went down into one in which a man had just been killed as they were about to descend. Judge Gray spent some time in listening to the weight of coal as set forth by the company and by the district president and also questioned a little Lithuanian boy as to his age and what wages he received.

ARCHBISHOP DENIES  
STORY OF TRANSFER

Declares Publication to Be Fabrication—Bishop McGrick Says He Has No Knowledge of It.

Minneapolis, Minn., Oct. 31.—Archbishop Ireland, in an interview, declared the story of his impending transfer to the archdiocese of Chicago to be false in every particular.

"Please say," said the archbishop, "that it is an arrant fabrication. Such publications would be annoying if they were less amusing."

"Rev. James McGrick, bishop of Duluth, characterized the article as a lie. The article referred to states that information confirming the news of Archbishop Ireland's transfer from St. Paul had been given out by a member of his household. Bishop McGrick says that this statement is untrue and that no member of the archbishop's household is in possession of any such information."

"There is no truth in the article from beginning to end," said the bishop.

**BARKING DOGS  
SAVE FOUR LIVES****FLAMES BATTLE THE FIREMEN**

Unable to Check the Blaze, Which Consumes Calumet Metal Furniture Company's Factory, Entailing a Loss of About \$24,000.

Chicago, Oct. 31.—Saved from death in a fire by the barking of two dogs, four men paid the debt to the canine saviors by unfasting the chains which kept them captives and then all found their way through blinding smoke to the exit and escaped. The blaze was in the Calumet Metal Furniture company's factory at 73 to 83 North Ashland avenue, and owing to the inflammable condition of the contents of the building it was a mass of flames when the firemen arrived, and though extra apparatus was called, the efforts of the fire fighters proved unavailing and the building was completely destroyed.

The men saved by the barking of the dogs were asleep on the second floor. They were: Arthur Hirsch, Henry Hirsch, J. C. Spokane, Benjamin Baran.

**Dogs Awaken Them.**

The men say that it was but a short time after they retired that they were awakened. When they heard a great Dane and a water spaniel dog barking loudly and heard shouts of fire from the street below they sprang from their cots and hastily dressed.

Policeman Knowles of the Lake Street police station saw the flames and turned in a still alarm through the police station. Marshal Cook and engine company No. 12 were the first to arrive. They found the north part of the building almost entirely in flames. A second, third and fourth call for engines was then sent in.

Within the near vicinity are several factories and a lumber yard. These places were carefully watched, but at no time was there any danger of their becoming ignited. The firemen used the Ashland avenue viaduct from which to fight the blaze.

**Suspect a Stranger.**

The blaze is thought to have started in the northwest corner of the structure. It is not known whether it originated from a spark from a passing engine or from spontaneous combustion. The Chicago & Northwestern, Chicago, Milwaukee & St. Paul and other railroads pass the place and a spark from a passing engine may have started the blaze.

After the excitement had subsided somewhat the men who were in the building told of chasing a stranger man from the building early in the night. Manager Hirsch says that the four men were playing cards, when they heard a sound as of breaking glass. Upon investigation they say they saw the stranger and fired one shot at him, but he escaped.

A stock of \$35,000 was kept in the place. The damage is estimated at about \$24,000.

**GEN. CORBIN FAVORS CANTEN**

In His Annual Report He Will Recommend Its Re-establishment.

Washington, Oct. 31.—The annual report of Adjutant General Corbin, to be made public shortly, contains a strong recommendation for the re-establishment of the army canteen. Special attention is called to the reports of general officers of the army showing the effect of the present system on the health and morals of the soldiers. These reports all indicate an increased number of derelictions, and more men are tried for drunkenness in the absence of the canteen than when it was in existence.

Waters of Lake Michigan Rising Over South Manitou.

Detroit, Mich., Oct. 31.—Anxiety is felt in South Manitou island over indications that the island may suddenly be swallowed up in Lake Michigan. Capt. Laffberg, in charge of the life-saving station at Sleeping Bear Point, has notified his superiors at Washington that in his opinion the island will soon disappear. A boat-house recently dropped out of sight and recent soundings have shown a depth of 30 feet, where formerly there was but three feet of water.

Fugitive Returns to Jail From Which He Made His Escape.

St. Joseph, Mich., Oct. 31.—Alexander McDonald's desire to secure a fortune left to him in Scotland will cause his reincarceration in jail at St. Joseph after five years of freedom. He broke out of the local jail five years ago and disappeared. The police were unable to find him. McDonald surrendered to the Pittsburgh police, saying that he wanted to be free of the charge of being a fugitive. His ultimate object was to secure the fortune to which he is heir.

**Iowa Library Association.**

Grinnell, Ia., Oct. 31.—The State Library association elected the following officers for the coming year: President, Johnson Brigham of Des Moines; vice president, Mrs. C. H. McNider, Mason City; secretary, Miss Clara Estabrook, Eldora; treasurer, M. H. Douglass, Grinnell.

**SUPERSTITION**

Has been responsible for much of human mortality. Men and women die by thousands in an Indian famine, not because of lack of food but because caste superstition prevents them from accepting it. Even in America there are still to be found those who believe that healing herbs lack virtue unless gathered during certain phases of the moon.

The great foe of superstition is science. Every year science increases the territory of the natural at the expense of the supernatural.

Doctor Pierce's Golden Medical Discovery achieves its successful cures because it is a scientific preparation originated by a scientific man. It cures diseases of the stomach and other organs of digestion and nutrition, purifies the blood and establishes the body in sound health.

As the writer of the following letter says, "It is the best thing for nervousness and for a weak run-down condition that anybody would want. It gives a person new life and new blood." "Golden Medical Discovery" contains no alcohol and is free from opium, cocaine and other narcotics.

"I must again send a few lines to you to let you know how I am getting along since taking the wonderful medicine which cured me two years ago," writes Mrs. Bertha Heiler, of 1416 Benton street, St. Louis, Mo. "I still continue in very good health and think there is not a better medicine on earth than Dr. Pierce's Golden Medical Discovery. It is the best thing for nervousness and for a weak, run-down condition, that anybody would want. It gives a person new life and new blood. I can now work all day long without feeling the least bit tired. I took five bottles of Dr. Pierce's Golden Medical Discovery and it just made me feel like a new person."

## OUR COAL

The coal production and consumption of the world, and especially of the United States in comparison with the other coal-producing countries, is the subject of a monograph which will appear in the forthcoming issue of the Monthly Summary of Commerce and Finance, issued by the Treasury Bureau of Statistics.

The general demand for coal seems to have increased very rapidly in recent years, not alone in the United States but throughout the world. One of the most characteristic features of modern industrial development has been the rise of the coal industry. Modern society relies upon coal as the fuel and source of power, and the terms "iron age," "machine age," and "age of steam" may all be translated the "age of coal."

The rapidly with which the production of coal has increased may be appreciated when the present volume of that production is considered and when we reflect in how recent a time the production formed but a very small fraction of that quantity. In 1901 the total coal production of the world was \$66,165,000 short tons.

Until as late a period as 1893 the world's production had never been half so great, being only 450,990,000 metric tons in that year; and not until 1872 had the world's production been so much as a third as large as it is at present. By 1864 the world's production was only 174,000,000 metric tons, or less than 23 per cent of the production of 1901. The statistics of the world's production, for still earlier periods cannot be determined with any pretense of accuracy; but on the basis of the British statistics from 1854, and of the estimates for earlier periods, and from such statistics as are obtainable from France, Germany, Belgium, and Austria-Hungary, an approximation made of the actual production. In 1850 the world's production of coal was about 144,000,000 metric tons, or less than one-fifth of the production of 1901, and considerable less than the production of either the United States or the United Kingdom at present. Ten years earlier the world's production amounted to only about 83 metric tons, and about one-tenth of the present world's production and considerably less than the present output of the single state of Pennsylvania. In 1840 the production was much smaller still, amounting to little over 45 million metric tons, or about one-seventh of the present output; while during the three-quarters of the century since 1820, when the output was about seventeen million tons, the production has increased about 17 million tons, the production has increased about 4,500 per cent.

While the figures for the world's production prior to 1864 are necessarily defective, owing to the absence of accurate statistics for the English and American industry, they sufficiently indicate the immense development of the industry during the last century. The significance of this development cannot be overlooked.

The production of coal is chiefly in the hands of three nations, the British, the American, and the German. During the last thirty years and even earlier, the combined output of coal of the United States, the United Kingdom and Germany have averaged, year for year, about five sixths of the coal output of the world. Possessing but a tenth of the world's population, they have produced about 83 per cent of the mineral fuel, while the remaining 90 per cent of the world's inhabitants have produced only about 17 per cent of the coal, and even if the savage and semi-barbarous nations be disregarded, the immense preponderance of coal production in these countries must be conceded. To this group may be added Belgium, which produces and consumes more coal per capita than any other European country except the United Kingdom, but for the fact of its small population placing it on the second rank of coal-producing countries.

While the continued output of these three countries has kept pace with the production of the rest of the world, their relative position has been materially altered. In 1863 the United Kingdom produced over three times as much as either the United States or Germany, the output of these countries being approximately 52, 14½, and 16½ per cent of the world's production, respectively. In 1870 the proportion was about the same, although the United States had gained on Germany as a coal producer. By 1875 the output of the United Kingdom was still considerably greater than the combined production of the United States and Germany, the output of these three countries being 45, 20 and 18 per cent of the world's production, respectively. The next half-decade period witnessed a remarkable increase in the American production and a corresponding relative increase in that of Great Britain, the proportion of these countries being 36, 28, and 17 per cent, respectively. This increase was maintained during the latter part of the past century, and in 1896 the output of Great Britain and Ireland was only 34 per cent, that of the United States already 30 per cent, and that of Germany 19.2 per cent of the coal production of the world.

In 1899, for the first time the coal production of the United States exceeded in quantity that of Great Britain. This superiority has been maintained for two successive years. During 1901 the United States production was greater than the amount of coal produced in Great Britain and all her colonies. During that year the shares of the leading coal-producing countries were as follows: United States, 34 per cent; United Kingdom, 28 per cent; and Germany, 19.2 per cent. Nor is there any prospect that the leading position of the United States may be lost in favor of another country within any calculable future time.

## J. PIERPONT MORGAN'S PART IN THE SETTLEMENT OF THE COAL STRIKE.

Probably Mr. Morgan never before appeared so large. It was one of the crowning moments of his life. For weeks he had labored along the road to it. The money in the coal business he cared not a rap for—a few millions, more or less, were as nothing in the balance. But he did care for his prestige, and fame as a conservator of industrial peace; he did care for his responsibility as a trustee of great interests; millions of men, and millions of money, demanded of him wisdom and action. He had his way, and it was the right way. Steel trust, nor shipping trust, nor any other great triumph in the field of finance, will ever reflect so much honor upon Mr. Morgan as this unselfish and patriotic achievement.

He had not only did a great thing, but he now proceeded to make it known in a great way. Instead of having the proposal to arbitrate announced at his bank, with himself inevitably looming in the background as the creator of it, he thought of Mr. Roosevelt down in Washington. Some of Mr. Roosevelt's acts he had not relished; the attack upon northern securities was, in his opinion, an onslaught upon him. But there was to be no littleness in this great hour. So he telephoned for a special train, and was soon speeding to the national capital. As I saw him walk into the White House, with Mr. Root, to place the fruit of his power and labor before the young president, as if it were a peace-offering and a pledge of good citizenship, and of desire to be of service to society—I thought the scene worthy of a place in a drama of American life. From "The Settlement of a Coal Strike," by Walter Wellman, in the American Monthly Review of Reviews for November.

## THE ISSUE FOR ALL

With but one week remaining before election day the first duty of voters is as well defined and pressing as it was in the beginning. In a season of political disturbance and disarrangement almost without parallel nothing has changed the most vital issue.

The Hon. Joseph Weeks Babcock, chairman of the republican congress campaign committee, says the republican majority in the next House of Representatives will be twenty-five at the lowest. Mr. Babcock's confidence as to this reaches certainty, in his own mind. He thinks it will rise above thirty.

To endeavor to improve on this calculation will be the correct course for all republicans and such democrats as cannot bottle up their consciousness that a transfer of control of the House from the party now holding it to their opponents would be against the interests of the United States.

For members of congress and the members of the state legislature expecting to elect a federal senator also votes will be cast for the names on the republican ticket.

Tomorrow many thousands of people will yell themselves hoarse at the football games about the country. They will shout with a much glo over the broken bones of the opposing team as ever did the Roman senators in the barbaric ages. The football is a part of the college curriculum and the Roman arena was not.

Senator Spooner will be at the Wisconsin-Michigan football game in Chippewa Falls Independent: Do not shirk your responsibility as a citizen by neglecting to vote. The city-

zen that habitually neglects to vote is unworthy the privileges of the self-governing state and the voter that occasionally fails to exercise his right of franchise is recreant in his citizenship.

Madison Journal: This is not a time to make mistakes and we fear Governor La Follette has made a serious one. The State Journal stands as strong as Governor La Follette for a reform in primary elections, and for a just distribution of tax burdens. It also stands for John C. Spooner, unconditionally, and it believes that to advocate any other stand for republicans at this late hour in the campaign endangers republican supremacy in Wisconsin.

Oshkosh Northwestern: Right is right, wherever it is found, and the Northwestern feels confident that it expresses the sentiment of the great majority of the people of this state when it says that Senator Spooner has done all that can be asked or required of him in decency and honor, and that his re-election should be assured not only as a reward for his own ability and conspicuous services for the state and union, as well as for the party, but also because the people of Wisconsin have spoken in no uncertain terms regarding this matter and expect and demand that this course be followed.

That student strike at Lansing, Michigan, could be easily broken if the papas would only come in with a big thought cane of hickory and teach the young the idea how to study not play.

The mine commission has its first view of the dangers of miners' lives as they were about to go in the first mine they inspected. A poor miner was brought up dead, his skull horribly crushed by falling coal.

After working less than a week the Pennsylvania coal miners stopped mining to celebrate Mitchell Day. May be those men do not want to work anyway.

Harmony now seems to have taken refuge in the wood pile.

It is but right to state that there is an election next Tuesday and that after that date all this cruel war will be over.

Mr. Bryan had another escape from being killed in a railroad wreck. Twice before Mr. Bryan has had a narrow escape—in two national election wrecks.

Now that Grover has come from the retirement of Princeton and proclaimed himself as ready to talk again. We may hear some free trade doctrine set forth.

Rock county is fortunate in having a fine set of candidates for county offices in the field on the republican ticket. They are all true and tried men and will be elected by a nice majority.

The women at the polls this year will be a new thing to the voters and ward heelers and their innovation may help to do away with bad influences that surround all the polling places election day.

Vote early so as to be the early bird next Tuesday and perhaps you will find that worm they all talk about.

Still Spooner says vote the republican ticket from La Follette down.

"Doughnut" Tarkington is the name given to one of Indiana's candidates for office.

The solemn stillness that now hangs over the British Parliament is most oppressive. Are there no more Irish members who can be sent to jail?

## A POEM

Bobbie and Davie and Davie and Bob. Each of them bidding for one little job. Go through a state and sad to relate. Using soft words as a ready cut bait. They beg for the votes, and the silly very notes. That come in a torrent from both of their throats. Tell never a word of why these two should not do the duties we give them to do. When we gave them the offices, go'nor and mayor. Instead of deserting, sans trouble, sans care, To bid for the getting of one little job—Hey! Bobbie! Hey, Davie! Hey, Davie and Bob.

## PRESS COMMENT

Milwaukee Sentinel: Sir Thomas really going to leave us? Well, that is too bad, but so long as Dr. Amos P. Wilder remains we hope to survive the blow.

Cincinnati Commercial-Tribune: In standing up for the American cow, it is to be hoped Senator Spooner will not be compelled to take some enraged bull by the horns.

Milwaukee Sentinel: If President Roosevelt's next forty-four years pass as strenuous as those he has just passed his biography will comprise as many volumes as an encyclopedia.

Des Moines Register and Leader: Mr. Bryan's theory seems to be that the American people will never have really clear heads until their stomachs and pockets are empty.

Milwaukee Sentinel: Sir Thomas Lipton might save considerable expense and achieve a better result by purchasing one of the old American cup defenders instead of building Shamrock III.

Appleton Post: Like the fellow who declared that he was "for the law but agin' its enforcement," so it would seem—if we catch his meaning—that Governor La Follette is for Senator Spooner, but agin' his election.

Chippewa Falls Independent: Do not shirk your responsibility as a citizen by neglecting to vote. The city-

## ENTERTAINED AT FORT ATKINSON

RECEPTION IN HONOR OF JANESVILLE CHAPTER D. A. R.

### WAS BRILLIANT SOCIAL EVENT

Twenty-Five Ladies from This City  
Royally Entertained as Guests  
of Honor.

In honor of the Janesville chapter of the Daughters of the American Revolution, a brilliant reception and tea was given at Fort Atkinson yesterday afternoon, a large number of ladies from this city being present as guests of honor. The ladies were entertained at the home of Mrs. Edward Rankin, regent of the Fort Atkinson chapter, and Mrs. R. P. Hunter, the two hostesses being next door neighbors.

Twenty-five ladies composed the Janesville delegation which left this city on the 12:15 train yesterday noon. They were met at the station with carriages and driven to the home of Mrs. Rankin where the early afternoon was devoted to the reception. About forty of the Fort Atkinson ladies were present and the afternoon was delightfully spent in renewing friendships, the Janesville ladies having entertained the Fort Atkinson chapter at the home of Mrs. Ogden H. Fethers, regent. Several vocal selections, exquisitely rendered by Mrs. S. T. Learned added greatly to the pleasure of the afternoon.

Beautiful decorations. At five o'clock the ladies were escorted to the home of Mrs. Hunter where tea was served. Both Mrs. Rankin and Mrs. Hunter have beautiful, spacious homes and they were both artistically decorated with large silk flags and great bouquets of white chrysanthemums and carnations. A rope had been stretched above the large lawn separating the two homes and two large flags were hung to the breeze.

The tables, at which covers were laid for seventy-four daughters, were beautifully spread. At each plate was a brilliant red carnation, which with the artistic souvenir toast programs, printed in blue and the white table linen gave the decorative color scheme of the national emblem.

Program of Toasts. The delicious tea which was served was followed by a program of toasts. Mrs. Rankin, regent of the Fort Atkinson chapter, presiding as toastmistress. Mrs. Ogden H. Fethers, regent of the Janesville chapter, gave the first response, "Why We Are Daughters," being followed by Mrs. M. C. Jones of Fort Atkinson, who the response, "Our Country." Mrs. M. G. Jeffris responded to the sentiment "Our Forefathers," and the entertaining program closed with the toast, "Our Emblem," by Mrs. J. F. Shreiner, of Fort Atkinson. The responses were all excellent and the Janesville chapter was especially proud of its representatives on the program.

List of Visitors. It was a happy party which returned to Janesville early last evening, charmed with the entertainment given them. The visiting delegation included Mesdames Ogden H. Fethers, William G. Wheeler, C. S. Jackson, J. T. Wright, Mary Lappin, E. F. Carver, C. S. Putnam, E. O. Kimberley, A. P. Lovejoy, John J. R. Pearce, Jas. Fifield, Charles Atwood, Sutton Morris, Ed. Ryan, Susan Jerome, M. G. Jeffris, G. G. Sutherland, E. H. Wood and Q. O. Sutherland and Misses Louise Hart, Mary Ueare, Kate Fifield, Lizzie Cowles, Mabel Greenman and Mae Treat.

Result of Tomorrow's Game  
with Wolverines.

Every Chicago bound train yesterday and today has carried gridiron enthusiasts toward the Windy City to see tomorrow's game between Wisconsin and Michigan, a number also being interested in the Beloit-Chicago game in the morning. The 10:25 train from Madison this morning carried an extra car which bore the Badger foot ball squad to the scene of their Saturday struggle.

Every man of the twenty odd who were on the train was in the pink of condition, and full of enthusiasm for the fray. Victory was the keynote of every word of every man on the train. One man said: "If we don't win that game, a string of corpses will be hauled back to Madison on Saturday night. We won't stop fighting before we die."

On being questioned regarding the prospects for the game, Coach King simply smiled the smile of a man who is well satisfied with things as they are, and remarked, "It'll be a fight worth seeing, and I don't think that any of the men from Madison will cry over the result."

William H. Tallman. Funeral services for the late William H. Tallman will be held tomorrow afternoon. A private service for the members of the family only will be held at the home, 158 South Academy street, at 2:30 o'clock and this will be followed by a service in the Congregational church at three o'clock. Rev. Robert C. Denison will be the officiating clergyman and the burial will take place in Oak Hill cemetery.

James Mansur. Funeral services for the late James Mansur will be held from the home, 52 Hyatt street, tomorrow morning at ten o'clock. The interment will be in Oak Hill cemetery.

NOTTAHOOK. A new kind of faster for L. plackett in a dress, fronts of waists, etc. A young lady will be at our store for several days, demonstrating at the lining counter.

## ALL DEALERS NOT MEANT

SIMPLY A STATEMENT FROM  
LAWRENCE ABOUT ONE MAN.

### AN EXPLANATION IS MADE

Dealers Explain That Coal Wagons  
May Increase in Weight  
on Trip.

Several of the coal dealers of the city think that an injustice was done them last night in an article that appeared in the Gazette relative to the shortage of weight of a load of coal sold to Mr. Linford Lawrence and in which the dealer's name was not mentioned. The claim is brought up that the people do not know what dealer was meant and that an injustice has been done to all coal men in the city by the article.

Mr. Linford Lawrence, who is engineer of the Barb Wire Works is authorized for the story that he bought a ton and a half of coal of one of the dealers, Mr. William Buggs, and found that the coal was 155 pounds short in weight after delivery and that on going to Mr. Buggs the shortage was made good.

When seen by the truth of the story Mr. Buggs substantiated it and said that he had given Mr. Lawrence 160 pounds of coal which more than made up the shortage.

With this story as a basis the Gazette last night printed the facts leaving the public to judge. That a threat of a suit had been made was substantiated by a conversation with a prominent attorney this morning who said that such was the case and that an action of this nature would probably be brought although he was not at liberty to say just when nor by whom until the papers were drawn up and ready for service.

No Reflection. The story was no reflection upon any dealer and was simply a statement of the facts as related by Mr. Lawrence of his trouble with Mr. Buggs. Mr. Buggs claimed that the shortage was a mistake in the weighing and that he refunded it and while not admitting the shortage in so many words sent Mr. Lawrence the 160 pounds of coal to settle the matter.

Mr. Bonesteel. William Bonesteel, one of the coal dealers whose name appeared in today's Recorder signed to an article, headed "Coal Dealers Resent The Charge," came into the Gazette office this morning to disclaim connection with the article. He said he had given no authority whatever for the use of his name, and that he saw no reason for resentment against the article which appeared in last night's issue of the Gazette under the caption, "Trouble Over Coal Purchase."

No Unpleasantness. He further said that the article should cause no unpleasantness to any dealer who was in the habit of giving honest measure himself. Another dealer whose name was signed to the same protest against the Gazette story said that he did not care to have his name mixed up in the affair, but that he did not know that his name was to be used until he saw the article in this morning's paper.

An Explanation. One coal man in speaking of the matter this morning explained the shortages which may have occurred as follows: "Often in wet weather a wagon is weighed at the scales when it goes out in the morning, and while going through the streets picks up a quantity of mud on the wheels, and when the wagon comes back with the coal the mud is weighed as coal. A pull of horses on the wagon may cause it to weigh heavier, and this pull is more likely to come when the wagon is loaded than when it is empty."

"Twelve dollars looks pretty big for a ton of coal, and a man is a good deal more careful to make sure that he is getting what he has paid for, than he would in past years. We have had several cases of mistakes which purchasers have called our made them good as soon as we were attention to but we have always made them good as soon as we were convinced that the claim was just. No dishonesty was intended."

Farmer Sues City for Damages

Mallwitz Claims a Bad Portion of East Milwaukee Street, Was the Cause of His Accident.

August W. Mallwitz, the farmer from Milton, who suffered a broken leg in a runaway accident on East Milwaukee street two weeks ago, has through his attorneys filed a notice of a claim for injuries against the city.

The document was received at the office of the city clerk this morning, having been brought in by C. H. Rogers, one of the members of the firm of Rogers and Rogers, of Fort Atkinson, the attorneys for the injured man.

Defective Highway. In the notice it is alleged that a depression in the road caught the front wheels of his wagon, and threw him forward in the wheelbarrow, breaking the front staves of his wagon, letting down the load of wood, and causing the horses to take fright and run away.

This depression which is complained of as the cause of the accident, is on East Milwaukee street, on the North side of the street, near the intersection of Wisconsin street. It is located about twelve feet from the south cross walk, and an equal distance east of the other cross walk. The worn place in the road, it is alleged, is from five to seven inches deep in the deepest part, and is of such shape as to easily catch the wheels of a wagon.

Severe Injuries Resulted. As a result of the accident, it is set forth in the notice, injuries resulted, consisting of a fracture of the right leg a few inches above the ankle, and severe and dangerous bruises in different parts of the body.

Mr. Mallwitz therefore makes claim of compensation and satisfaction for said injuries, from the City of Janesville. The accident took place two weeks ago today on the 15th of the month.

Doe-Paine. Miss Kate Doe, daughter of General and Mrs. J. B. Doe, formerly of this city, and Byron D. Paine, of Milwaukee were married at the home of the bride's parents in Milwaukee on Wednesday evening. Rev. Jas. Silihi, rector of St. John's Episcopal church, a former pastor of this city, was the officiating clergyman and attendants were Miss Julia Adrienne Doe, sister of the bride, and Percy Hamford. The wedding was an elaborate one, although only relatives were present. Mr. and Mrs. Paine will reside in Milwaukee.

## MRS. C. J. HINES BADLY BURNED

PUT GASOLINE INTO BOILER OF  
HOT WATER.

### CAUGHT ON FIRE INSTANTLY

Mrs. Hines Was Seriously Burned  
About the Face, Hands and Arms.

Mrs. Charles Hines, who lives at 204 South Cherry street was severely burned this morning about the hands and face by an explosion of gasoline. Dr. Mills was called and dressed the wounds which were very painful and reports that the woman is out of danger but suffering much pain.

Used in Washing. It appears that Mrs. Hines was washing and had a boiler of hot water and clothes on the stove soaking. As was her custom she started to put a cup of gasoline into the boiling water for cleansing purposes and as soon as it struck the water it ignited and the flames enveloped her face and hands. Her sleeves being rolled up much more surface of the flesh was exposed and her burns are quite serious.

Ran to Neighbors. With the burns driving her insane with terror Mrs. Hines rushed to a neighbor's house and Dr. Mills was sent for. He found that the forearm and hands were the worst burned but her hair was badly scorched and her face was one blister. He did all he could to alleviate the pain and she was taken back to her home and made as comfortable as possible.

A Similar Accident. Mrs. Hines' mother, Mrs. James London, was similarly burned by gasoline in the explosion of a stove some time ago and died later from the effects of the wounds. Mrs. London was repairing the stove at the time of the accident when the gasoline tank exploded and her sufferings were horrible. Mrs. Hines' husband is employed at the Janesville Machine works.

## Y. M. C. A. BANQUET ELECTION NIGHT

Will Form a Supper Club for the  
First Tuesday of Each  
Month.

On election night under the auspices of the Young Men's Christian Association, the first of a series of six banquets will be given. agreed to attend a series of six business men. banquets to be given on the first Tuesday of each month. The dinner will be provided by the Ladies Auxiliary of the Y. M. C. A. In its scope the club will be designed to promote a closer social acquaintance between the young men and with the older ones, and to bring up for discussion such subjects as are of general interest at the present time, and in which the young men should take a closer interest.

First Supper. On Tuesday night it is believed that the series will start with a grand rush, especial interest being given to the gathering by the fact that the election returns will be announced in the Y. M. C. A. building where the banquet will be held. The guests will not, for the most part, leave until the last returns have been brought in, and it is believed that the programme which has been arranged will form a pleasant way of spending the evening which as a general thing is more or less irksome during the pauses between the dispatches from the state.

All Can Join. Out of the number of men who are to join the club between fifty and sixty of the younger men have already asked to be taken into the membership. More members will be received up to Tuesday night, but after that date a permanent organization will be brought about, and a limited membership will be fixed upon.

The Programme. After the banquet has been duly treated with, the programme will begin under the leadership of Mr. F. F. Lewis, the president of the association.

Among the talks which are to be given are the following: "Our Purposes and Objects"—A. E. Matheson. "The Future of Our Club"—M. P. Richardson. "From the Young Man's Standpoint"—Bernard Palmer. "From the Business Man's Standpoint"—Pinky Norcross. "Glimpses From Foreign Lands"—Rev. R. C. Denison. "Election Returns"—J. H. Jones.

Dr. Miles' Heart Cure Relieved and Cured.

"I have no hesitation in saying that Dr. Miles' Heart Cure is all that one can wish it to be. I was troubled with heart disease for fifteen years. I have tried many different remedies but until I tried Dr. Miles' Heart Cure I could find no relief. I was subject to headaches and had tried your Pain Pills and they were so effective I thought your Heart Cure might help me. I would have attacks at times so severe that I would be stone blind for the time being. During these spells I would be to all appearances dead. I took the medicine strictly as directed and I advise all that are troubled with heart disease to take Dr. Miles' Heart Cure at once. I write this and give my name to my fellow sufferers."—S. E. Purdy, Atkinson, Nebraska.

"I first felt the effects of a weak heart in the fall of 1894. I saw an advertisement in the Sioux City paper in which a man stated his symptoms which seemed to me to indicate a trouble similar to mine. I had a soreness in the chest at times, and in my shoulder, an oppressive choking sensation in my throat and suffered from weak and hungry spells. I was truly frightened at my condition and procured six bottles of Dr. Miles' Heart Cure. Since taking my first bottle I have never experienced any of the old disagreeable symptoms and now am well and consider my cure permanent."—Lewis Anderson, Kuhn, S. D.

## CONSUL OUSTS PERU'S MAYOR

### CITY'S AFFAIRS IN BAD MIX-UP

Marshal Declines to Obey Executive's Commands and Latter Declares He Will Not Sign Salary Vouchers, the Town Board Retaliating in Kind.

Peru, Ill., Oct. 31.—As a result of a fight between Mayor Shadensack and the city council, which culminated in the adoption by the council of resolutions requesting the mayor to refrain from performing his duties while he rests under charges of accepting a bribe, Peru is practically without a city government. All the departments are crippled and the citizens threaten to institute mandamus proceedings unless the trouble is speedily adjusted.

Following the adoption of the resolutions Mayor Shadensack in an impassioned speech defied the council to force him to resign his office.

**Text of Resolutions.**

The resolutions are as follows: "Whereas, Charges of bribery have been preferred against Louis H. Shadensack, mayor of Peru, and,

"Whereas, The grand jury of La Salle county, after investigating said charges, have found an indictment for bribery against said Louis H. Shadensack; therefore be it

"Resolved, That this honorable council hereby request said Louis H. Shadensack to refrain from performing the duties of mayor until such time as a court of competent jurisdiction shall have given him an opportunity to prove his innocence of such charges, if he can do so."

**Mayor is Defiant.**

The clerk had hardly finished reading the resolutions when the mayor arose and said:

"I defy you all to attempt in any manner to force me to release my office. The courts will take this matter in hand, and until they decide that I am guilty of these charges you are powerless to do anything. The people have placed me in this office, and here I will stay until they, and not you, unseat me. I refuse to allow a vote on this resolution."

An appeal from the decision of the chair was taken, and on motion the resolutions were adopted.

The trouble began four months ago, when Benjamin Dierks, city marshal, resigned his position rather than eject Alderman Thomas Morley from the council chamber at the request of the mayor.

**No Salary Checks.**

Previous to this, Marshal Dierks ejected Henry Helmig at the mayor's request, and, as a result, he is one of the defendants in a suit for \$10,000 damages instituted by Mr. Helmig. Because of this fact, and because he thought Alderman Morley's election uncalled for, Marshal Dierks refused. At a later meeting of the council Dierks was reinstated city marshal. The mayor opposed the action, and since that time Mayor Shadensack has refused to endorse the city marshal's salary checks. Consequently Dierks has received no compensation for his services. At a recent meeting of the city council the aldermen refused to audit the mayor's salary checks.

**MAIL CARRIER SEES WILD MAN**

Abnormal Creature Darts Into the Woods When Spoken To.

Rockford, Ill., Oct. 31.—There is much excitement in the country between Rockford and Belvidere over the appearance of a wild man, whom many persons claim to have seen, among them Al Aten of Belvidere, mail carrier of a rural route. Aten says that when he spoke to the wild man he received no reply, but saw him suddenly dart off into a thick wood.

**Strikes in France.**

Paris, Oct. 31.—A renewal of minor disturbances between strikers and non-strikers was reported from the mining districts. At Denain the strikers demolished a coal yard and broke the windows of buildings. At Lens there was some destruction of property.

**Kruger to Take Oath.**

Brussels, Oct. 31.—Mr. Kruger, formerly president of the Transvaal, has decided to give up his irreconcilable attitude toward the British. He will take the oath of allegiance, and will ask for permission to return to south Africa.

**Royal Betrothal.**

Vienna, Oct. 31.—The betrothal is announced of the Archduchess Elizabeth, daughter of the late Archduke Karl Ludwig, brother of Emperor Francis Joseph, to Prince Aloys von Lichtenstein.

**Elopes With Cousin.**

Kenosha, Wis., Oct. 31.—Miss Lizzy Laper, who was alleged to have been kidnapped from the town of Salem, has been found at Jordan, Mich. She had eloped with a cousin.

**Buzz-Saw Kills.**

Bloomington, Ill., Oct. 31.—Falling against a buzz-saw in a portable saw-mill on his farm in western McLean county, Frank Spence, a well-known farmer, was almost cut in two.

**Creates an Empress.**

Yokohama, Oct. 31.—The emperor of Corea has raised his favorite wife to the rank of empress.

**Four Die in Wreck.**

Dayton, Ohio, Oct. 31.—The C. D. H. & I. passenger train, en route from Chicago to Oxford, Ohio, ran into a freight wreck. The engineer, one passenger and two tramps were killed and a number of passengers injured.

# ELECTION NOTICE.

To The Electors of Rock County:

Notice is hereby given that a general election is to be held in the several towns, wards, and election precincts in the county of Rock, on the 4th day of Nov., 1902, at which the officers named below are to be chosen. The names of the candidate for each office to be voted for, whose nominations have been certified to, this office, are given opposite the title of the office and under the appropriate party or other designation, each in its proper column, and the questions submitted to a vote are stated below.

## INFORMATION TO VOTERS.

The following instructions are given for the information and guidance of voters. A voter upon entering the polling place and giving his name and residence, will receive a ballot from the ballot clerk which must have indorsed thereon the names or initials of both ballot clerks, and no other ballot can be used. Upon receiving his ballot, the voter must retire alone to a booth or compartment and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner whom to vote for. If it be a general election these words are to follow:

The voter if he wishes to vote for all the candidates nominated by any party, should make a cross mark X under the party designation printed at the top of the ballot in the circle made for that purpose. A ballot so marked, and having no other mark, will be counted for all the candidates of that party in the column underneath, unless the names of some of the candidates of the party have been erased or a cross mark be placed in the square under the name or at any place in the space occupied by the name or names of candidates in another column, and will be counted for any name written in lieu of one erased. If the voter wishes to vote for some of the candidates of different political parties, he should make a cross mark under the name of each candidate he desires to vote for, or at any place within the space in which the name is printed. If he wishes to vote for a person for a certain office whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for the office. The ballot should not be marked in any other manner. If the ballot be spoiled, it must be returned to the ballot clerk, who must issue another in its stead, but not more than three in all to any one voter. Five minutes' time is allowed in booth to mark ballot. Unofficial ballots or memoranda to assist the voter in marking his ballot can be taken into the booth, and may be used to copy from. The ballot must not be shown so that any person can see how it has been marked by the voter. After it is marked, it should be folded so that the inside cannot be seen, but so that the printed endorsements and signatures of the ballot clerks on the outside may be seen. Then the voter should pass out of the booth or compartment, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box, and pass out of the voting place. A voter who declares to the presiding officer that he is unable to read or that by reason of physical disability he is unable to mark his ballot, can have assistance of one or two election officers in marking the same, to be chosen by the voter; and if he declares that he is totally blind, he may be assisted by any person chosen by him from among the legal voters of the county. The presiding officer may administer an oath in his discretion, as to such person's disability. The party designations and candidates for the different offices are as follows:

### INTERURBAN ROAD NEARLY COMPLETE

Construction of the Line Into the City Will be Finished Tomorrow Night.

It is expected that by tomorrow evening the work of laying the rails of the interurban electric railway will be completed between this city and Beloit and that within a month cars will be making regular trips between this city and Rockford.

There are only a few rods of line where the rails have not been laid and this gap is at the tunnel under the Northwestern track, a quarter of a mile south of the Choate-Hollister furniture factory. The rails have been laid out from this city to the tunnel for some time and recently the work has been progressing from Beloit toward this city. The grading is all completed on the gap between the terminals of the two sections of tracks and the connection between the two will be made by tomorrow night.

The work of laying the rails, stringing wires and ballasting tracks between this city and Beloit is being carried on rapidly by a large force of workmen and Janesville people will be pleased to learn that the construction of the road is so nearly completed.

### ANNUAL MEETING OF HISTORY CLASS

Officers Elected by the Young Ladies' Auxiliary to the Woman's History Club.

Members of the Young Ladies' Auxiliary to the Woman's History Club held their annual meeting at the home of Miss Louise Crosby Wednesday afternoon. Considerable business of importance was transacted and the following officers were elected for the ensuing year: Miss Alice Reger, president; Mrs. David Holmes, vice president and Mrs. William Reger, Jr., secretary and treasurer. After the business meeting, the club members enjoyed a delicious luncheon, served by the hostess.

The young ladies will continue their work in general history under the direction of their parent club. They share with the older clubs the privilege of attending the lectures to be given this season on Home and Roman history by Prof. T. L. Wright of Beloit. The first lecture in the series will be given in the science room at the high school building tomorrow afternoon.

### Woman Is Murdered.

Reading, Mass., Oct. 31.—An unknown woman, about forty years old, was found murdered about two miles from here. There were two bullet holes in her head. There is no clue to the murderer.

Decorated for American. Paris, Oct. 31.—James Stokes of New York was invested with the cross of an officer of the Legion of Honor. Mr. Stokes donated the funds necessary to erect the Y. M. C. A. Paris building, and was also instrumental in erecting similar buildings at Rome, St. Petersburg and Vienna.

To Increase Japanese Navy. Yokohama, Oct. 31.—The Japanese cabinet has adopted the proposed scheme for naval expansion. It involves an annual expenditure of \$8,250,000 for ten years. The plan involves the building of four new battleships, six first-class cruisers and various other craft.

School to Get \$940,000. New York, Oct. 31.—James E. Russell, dean of the Teachers' College of Columbia university, announces that the \$440,000 necessary to fulfill the conditions of the gift of John D. Rockefeller of \$500,000 had been assured.
